

ROHAN DOHE

MERN Stack Developer • +91 8208556312 • rohandohe5427@gmail.com • [Github](#) • [LinkedIn](#)

EXPERIENCE

Full Stack Developer — DezyKode IT Solutions, Pune

Jan 2026 – Present

- Developed AI-powered web applications using the MERN stack by integrating Large Language Model (LLM) APIs into production-ready applications.
- Designed visually appealing landing pages with scroll-based animations, parallax effects, and modern UI components while maintaining responsive layouts.
- Deployed scalable applications on Vercel and Render while managing environment configurations, API integrations, and production releases.

MERN Stack Developer — Wide Softech Pvt. Ltd (Internship), Nagpur

Jan 2025 – Jul 2025

- Gained hands-on experience in MERN stack development, contributing to real-world web applications under the guidance of senior developers.
- Began professional software development by working on full-stack web applications using MongoDB, Express.js, React.js, and Node.js in a collaborative team environment.
- Built a strong foundation in modern web development by developing production-ready features, integrating REST APIs, and following industry best practices.

PROJECTS

Iron Rentals - Heavy Equipment Rental Platform [Github](#) | *React.js, Node.js, Express.js, MongoDB, Vite*

- Built a full-stack heavy equipment rental platform with a fleet catalogue of 18 machines, rental inquiry form, and a protected admin dashboard — eliminating phone-only booking coordination.
- Engineered a React admin dashboard with 7 modules (fleet, bookings, customers, operators, compliance, invoices, maintenance) and live Chart.js analytics — giving operators a single view to manage active rental contracts across Pune, Mumbai and Nagpur.
- Built a tri-mode (light/dark/neon) UI system with 18 CSS custom property tokens across 8 pages and 10+ reusable components — zero third-party theming library.

Prajna AI [Github](#) | *MongoDB, Express.js, React.js, Node.js, Google Gemini API, JWT*

- Built a Generative AI-powered chatbot using the MERN stack and Google Gemini, enabling users to ask general questions or upload PDFs for context-aware conversations.
- Implemented Retrieval-Augmented Generation (RAG) with vector embeddings, semantic search, JWT authentication, and chat history to deliver accurate, real-time AI responses.

Windows-Style Portfolio [Github](#) | *HTML, CSS, JavaScript*

- Built a Windows-style portfolio in vanilla JS — draggable windows, taskbar, app icons — scoring 94 on Lighthouse with zero frameworks, demonstrating strong DOM fundamentals.

SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks & DB: React.js, Node.js, Express.js, MongoDB, Bootstrap 5

Tools & Testing: Git, Postman, React Testing Library, Vite, Vercel

Concepts: REST API Design, JWT Auth, CI/CD, Responsive UI, Component Architecture

EDUCATION

B.Tech — Information Technology, J D College of Engineering and Management, Nagpur

2021 – 2025

CGPA: 6.96 / 10

CERTIFICATIONS

- AI-ML Virtual Internship — AICTE
- Paper Presentation — International Conference
- Foundations of Web Development — Udemy
- Web Development — IIT Bombay
